CLEANING KIT

A few of my favorite things

What do I need?

There are tons of specialty products on the shelves and that can make shopping for cleaning products confusing. This list gives you a good starting point to clean everything in your home. You can add to it as needed.

I can't afford all that/I'm still overwhelmed

If this kit feels out of reach, a great place to start is buying some dawn power-wash and a scrub daddy. You can get almost anything clean that way.
